Winco has different gaskets and glazing methods that can accommodate odd thicknesses of glass. If you do not see what you are looking for within this chart please contact your local representative for information regarding your specific project needs.

HARDWARE

All 8800 Series windows are fixed. The human impact sash is a hinged configuration with concealed stainless steel hinges and multi point locks. The lock is mounted in a manner to achieve a flush appearance and avoid hardware protrusions to enhance the safety of the product. The blind control knob is a thumb turn design which also does not offer any hardware protrusions.
